To whom it may concern:

We have had a relationship with IOS Consulting since 1991 when we first started using AccPac. At that time IOS was very helpful in giving us solutions to a bookkeeping problem and to get the results we were looking for.

What I appreciate most with dealing with IOS and Kerry Gullins is their emphasis in service to their clients. Computer problems seem to come at the worst possible time, and I have always found that whenever I am in need of help, I can count on Kerry to have it sorted out quickly.

I would not hesitate to recommend IOS Consulting and Kerry Gullins to anyone. This is very much a "can do" and "hands on" company and a good partner to any business.

Yours truly,

Dorothy Peterson
